

## **7.2 Best Practices.**

### **1. Best Practices**

#### **1) Title of the practices – Swacchya Kalamb Abhiyan (Cleanliness Drive in Kalamb)**

#### **2) Goal :**

The goal of this practice is to keep the village and surrounding area of the village clean and decent. At the same time our main objective is to maintain the environment safe and sound. Our mission is to create awareness among the common people regarding importance of cleanliness and hazardous effects of dirt and wastages on human body.

#### **3) The Content :**

According to the plan we conduct the meeting of students and teachers. We framed our aims and objectives. We also displayed notice on the notice board for the information of the students. We received massive response out of it. We guided the students regarding the importance of the cleanliness and waste management. Our student responded to it and they convinced the people about it. Even the Girl students of our college expressed their willingness for the spontaneous participation in this activity.

#### **4) The Practice :**

All the students and teachers along with the teachers and villagers arranged a program on 4th August 2018 to clean the village and create awareness among the people. We distributed all students in five groups for the various located areas of the village. The collective effort proves very effective in the orientation and creation of awareness among the villagers. The students also prepare posters and arrange rallies to keep the premise clean and take precaution in maintaining hygiene.

### **Evidence of Success:**

The joint initiative of the college and the villagers is very impressive and largely impacted the people from the village. We became successful in convincing people about the significance of hygiene. We intimate them about infectious disease among people if they don't use sanitation facilities with care. Earlier, we used to burn the waste material at the dumping ground which is away from the village. The outcome was that, there was a lot of carbon oriented smoke used to spread all over. It made people to suffer from respiratory disease. We become successful in controlling various diseases in and around kalamb village.

#### **5) Problems encountered and Resources required**

In this Cleanliness Drive, very few people participated actively. There is a need of comprehensive planning and regular feedbacks from all the villagers are expected. The new machinery like tractor and trailer is needed for carrying garbage to dumping ground.

### **Best Practice 2**

#### **1) Title of the Practice :**

Study Tour and Visit to Natural and Historical Places.

#### **2) Objective of the Practice:**

To create awareness among students about the historical and natural heritage of the state.

To know about the functioning and give real site experience of corporate culture to students.

To give exposure of the manufacturing process and marketing policies to Students.

#### **3) The context :**

Our college organized study tour to the industry and visit trip to the historical and natural places.

1) To give real work experience and exposure to the students about the functions of industry.

2) To observe the process of Manufacturing and the structure of plant layout.

- 3) To develop the awareness among the student about the culture and historical heritage of the country.
- 4) To motivate the students to copeup with the changes in industrial protocol.

#### **4) The Practice :**

The commerce department organized study tour of Our 60 students of T.Y. B.Com have visited to a sugar factory name Shri Chhatrapati Co-Op Sugar Factory Ltd., Bhavaninagar to take the information about the plant layout, the different process for the product of sugar, the electricity generation plant, packing instruments and bye products. The department organized study tour of S.Y.B.Com 85 students visited to dairy place in Indapur Taluka at Gokhali which is run by Mr. Dashrath Mane. The name of dairy Plant is “Sonai Dairy”. Our student took information about the dairy plant including different process of milk filtration, making of different products from milk.

The common college trip is arranged from 28/01/2019 to 30/01/2019 Our 80 students and 10 staff members visited Wai, Pratpgarh, Shriwardhan, Harihareshwar, Dighi Port, Janjira Fort. For watching treaking the historical and natural places and Beeches.

Evidence of Success : Under this practice college and their students around 225 students were participated. They learn and experience the corporate imbibe cultural & encourage historical heritages. Problems Uncounted and Resources required : Organizing such even is big challenge. Around 225 students participated in the Study tour as outdoor activity. As such so for, no problems is uncounted and whatever small little problems were taken care by team itself.
