Title of the Practice - Science Exhibition

➤ Objectives of the Practice

1. To generate interest in science and technology.
2. To engage students in learning new facts and inventions with a zeal of interest.
3. To explore the creative talent of the student and force them to think out of the box.

➤ The context

National Science Day is celebrated in India on 28 February each year to mark the discovery of the Raman Effect by Indian physicist Sir C. V. Raman on 28th February 1928. Science fair is an opportunity for students to apply the scientific method for conducting independent research.

➤ The Practice

The notice was provided to students a week before. Sixty four students were participated in the exhibition. Most of the students belonged to the

faculty of science especially Chemistry, Mathematics, Electronics, Botany, Zoology and physics. 11 Students of Arts and 12 students of Commerce faculty also participated in the exhibition. Volcanoes and its existence on earth is demonstrated by geography students. Application of Statistics, Bonding, Diffusion, Magical activities were the primary subjects by science faculty students. At the end students from each faculty shared their experiences. Vice principal Dr. Arun Kamble and principal Dr. Ankush Aher delivered an inspirational speech.

➤ **Evidence of Success**

1. Research Culture is inculcated among students.
2. Students are encouraged to do new projects
3. Students were imported with a great knowledge and love for science
4. Student understood the importance of science in day to day life and it develops scientific temper.
5. Student understood the importance of science and technology for India

➤ **Problems Encountered and Resources Required**

1. Financial Resources are limited.
2. Laboratory Equipment's are limited.
3. College is situated in the rural area so it's difficult to generate interest in science.
